## **DETAILED ACTION**

### ***Response to Amendment***

1. This Office Action is in response to applicant's amendment dated 07/26/2004 in response to PTO Office Action dated 03/25/2004. The applicant's remarks and amendment were considered with the results that follows.
2. Claims 1-16 have been presented in this application for examination. Claims 1-16 have been canceled and new claims 17-34 has been added. Therefore, claims 17-34 remain pending in the application.

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 1-16 are persuasive, however, since applicant has canceled claims 1-16, the previous rejection of the claims 1-16 are no longer relevant. The applicant's arguments with respect to new added claims 17-34 are moot in view of the new ground(s) of rejection.

### ***Information Disclosure Statement***

4. The Information Disclosure Statement submitted by applicant on 03/25/2004 has been considered. Please see attached PTO-1449.

### ***Double Patenting***

5. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis

added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

6. A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

7. Claims 17-34 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 24-41 of copending Application No. 10/095,582. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
